

REMARKS

This application has been carefully reviewed in light of the Office Action dated May 17, 2006. Claims 39, 46 to 55, 58, 59, 65, and 66 are in the application, of which Claims 39 and 66 are independent. Claims 39 and 66 have been amended herein. Reconsideration and further examination are respectfully requested.

Claims 39, 46 to 50, 52 to 55, 65 and 66 were rejected under 35 U.S.C. § 102(b) over U.S. Patent No. 5,550,576 (Klosterman). Claim 51 was rejected under 35 U.S.C. § 103(a) over Klosterman in view of U.S. Patent No. 5,686,954 (Yoshinobu). Claims 58 and 59 were rejected under 35 U.S.C. § 103(a) over Klosterman in view of U.S. Patent No. 5,801,787 (Schein). The rejections are respectfully traversed.

According to a feature of the invention as recited by Claims 39 and 66, the display unit is controlled to display an EPG table based on the EPG data in an expanded display frame such that a display frame of the detailed program information is not superimposed over a display frame of the main program information.

Klosterman is not seen to disclose or suggest at least the above-discussed feature.

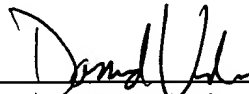

In addition, Yoshinobu and Schein have been reviewed and are not seen to remedy the deficiencies of Klosterman.

The dependent claims are also submitted to be patentable because they set forth additional aspects of the present invention and are dependent from the independent claims discussed above. Therefore, separate and individual consideration of each dependent claim is respectfully requested.

The application is believed to be in condition for allowance, and a Notice of Allowance is respectfully requested.

Applicants' undersigned attorney may be reached in our Costa Mesa, California office at (714) 540-8700. All correspondence should continue to be directed to our below-listed address.

Respectfully submitted,

Damond E. Vadnais
